## Stylex Doors

Introducing artistically beautiful, etched and stained doors for homes and offices since 2011, Stylex Doors has established itself as one of the leaders in manufacturing and marketing of PVC and steel doors in South India.

Advanced manufacturing technology and unique features of our imported raw materials and accessories enable us to assemble and install stunningly attractive doors suitable for your kitchen, bathroom and other living area. Constant upgradation of technology and designs helps us to bring the latest styles to the ever demanding market.

The high quality decorative PVC doors come with glass fixtures that spread charm all around the home and pleasant vibrancy around the office.

Ready made Steel doors with many different features gives high security to your homes and offices.

Style & Strength**

# Why STYLEX Doors?

**Long life:** Stylex Doors will practically last forever. For this reason, they are an excellent investment for your home as they do not involve any future maintenance costs.

**Weather Resistant:** Highly weather resistant quality is achieved by antiultraviolet and high impact resistant formulation. The doors can withstand long exposure in extremeweather. Even in special conditions like coastal areas (salt, storm, sun), Stylex PVC is more applicable with no quality deterioration ever. They do not rot, corrode nor warp and can perfectly withstand years of weather beating.

**Economical:** The prices of Stylex Doors are very economical when compared to other alternatives available in the market.

**Designs:** More than 60 designs are currently available in the Premium PVC doors category, and another 30 designs for Standard category. Custom designs provided by customers can also be made available as required.

**Maintenance free:** Its closed, smooth surface makes it externally easy to clean. The product is virtually dirt resistant as there are no pores that may be filled with dirt.

**Environment friendly:** PVC has been specified as an alternative to wood as it helps in curbing deforestation. Besides, they can be fully recycled and reused for the production of PVC profiles.

**UV Printing:** Stylex Doors is the only company in South India with high resolution, high quality UV printing facility
